Item 8.01. Other Events

On February 24, 2022, Russia commenced a military attack on Ukraine. The outbreak of hostilities between the two countries could result in more widespread conflict and could have a severe adverse effect on the region, the markets for gold, silver, oil, natural gas, and currencies and the price of Financial Instruments based on such commodities and currencies, and other markets. In addition, sanctions imposed on Russia by the United States and other countries, and any sanctions imposed in the future could have a significant adverse impact on the Russian economy and related markets. The price and liquidity of the Financial Instruments in which each Fund invests may fluctuate widely as a result of the conflict and related events. How long such conflict and related events will last and whether it will escalate further cannot be predicted. Impacts from the conflict and related events could have significant impact on a Fund's performance, and the value of an investment in the Fund may decline significantly.
