14 Describe the organizat	tional action and, if a	pplicable, the date of the action or	the date against which shareholders' ownership is measured		
the action ► Effective	e as of the close o	business on May 23, 2018, share	es of ProShares UltraShort FTSE China 50		
underwent a 1:4 reverse s	hare split and CUS	P change. The reverse split incre	eased the fund's price per share by a factor of 4 with a		
proportionate decrease in	the number of sha	es outstanding. As a result, sha	reholders received 1 post-split share for every 4 pre-split		
shares held. Post-split sha	ares were priced 4	imes higher than the net asset v	alue ("NAV") of a pre-split share. Shares began trading at		
post-split prices on May 2	4, 2018. The ticker	ymbol for the shares did not ch	ange. The CUSIP number for post-split shares is		
74347B227, For sharehold	ers who held pre-s	lit quantities of shares that were	e not an exact multiple of 4, the reverse split resulted in		
the creation of a fractiona	l share. Post-revers	e split fractional shares were rec	deemed for cash and sent to shareholders' broker of		
record.

valuation dates ▶ Po:	st-split (new) basis	per share = pre-split (old) basis (per share times 4.		
For example, a sharehold	er with 100 pre-spli	shares with a basis of \$10.00 pe	er share at the close of business on May 23, 2018, would		
receive 25 post-split share	es with a basis of \$	0.00 per share. While the basis j	per share is impacted, the basis of the shareholder's total
